Opdracht 5.2 (boek): ethische vragen

- a) Wat zou jij doen?
- Waarom?
 - Welke dilemma's spelen daarbij een rol voor jou?
 - Welke normen en waarden?

Verwerk dit in jouw antwoorden.

Dilemma	Jouw antwoord
Wat doe je als je weet dat de caissière in de supermarkt een krat bier pop je karretje vergeet mee te rekenen?	I would tell her that she forgot an item , because first she may get in trouble for this later and second treat others like you would like to be treated . There is no dilemma for me I have more to lose then I gain by not reacting. Fairness and truthfulness
Wat doe je met de verpakkingen van de hamburger die je bij het drive-in restaurant hebt gekregen? Op straat gooien? Meenemen naar een prullebak verderop? Anders?	I would keep it with me until I find the nearest trash can to throw it away .Dilemma it would be annoying if the thing is all greasy and dirty and is easier to throw it out anywhere . But I love having clean streets and places so I will always do my best to contribute to this . Treating other like you wish to be treated .
Wat doe je als het stoplicht op rood springt? Stoppen? Wat doe je als er geen verkeer is? Maakt het uit of je met de auto bent of de fiets?	It heavily depends but first id stop and check for traffic if I am in a major rush and there is no traffic with in site I would go because it makes no sense to sit and waiting for nothing . In any other case I stop and wait . No doesn't matter if I'm on bike or car same train of thought. My dilemma would be that I'm breaking the law , but the law is only there to protect you yourself and everyone else so as long as what I'm doing doesn't hurt or inconvenience anyone I would do it anyway . Being effective is my value for this , make use of your time effectively .
Mag je een geleende cd kopiëren? Of gewoon downloaden van internet?	I cant identify myself with this question it is very outdated , but since there are laws about this id just follow the laws .
Je fiets is gestolen. Wat doe je als je een erg goedkope fiets wordt aangeboden door een junk?	I would walk away cause I don't want to get into any kind of shady business and there is a saying that that the cheap decisions will make your life expensive . Also id like to do my part in ending this business the less people buy stolen bikes mean less demands and as a result less and less bikes will get stolen . Dilemma would probably I could save a lot of money . My value is to be Honest and treat other like you would like to be treated .
Wat doe je als je een portemonnee op straat vindt met de naam van de eigenaar en 100 euro er in?	I would try to find the owner and return it with ALL of its contents . You never know what people may be going true if they had a desperate need for their money to pay rent or food . Dilemma would be free money . My value again treat other like you would like to be treated , and place yourself in other peoples shoes .

Mag je liegen om bestwil?	I usually try to tell the truth always but when I can lie for a good cause I sometimes falter .

Opdracht 5.5 (boek): Ethische vragen tijdens je studie

a) Wat vind je erger: spieken, plagiaat of meeliften? Waarom?

Plagiaat hands down , you are stealing someone else's work that they worked hard for and that you may or may not even understand .

b) Andere belangrijke ethische vragen die je tegenkomt tijdens je studie:

Bullying , put yourself in someone else's shoe and see how you feel about what you are about to do also treat other as you wish to be treated .

c) Zeg je er wat van als je een student ziet plagiëren of meeliften, of doe je dat niet? En waarom (niet)?

I would let the truth be known .
